

 **vital**GROUP 

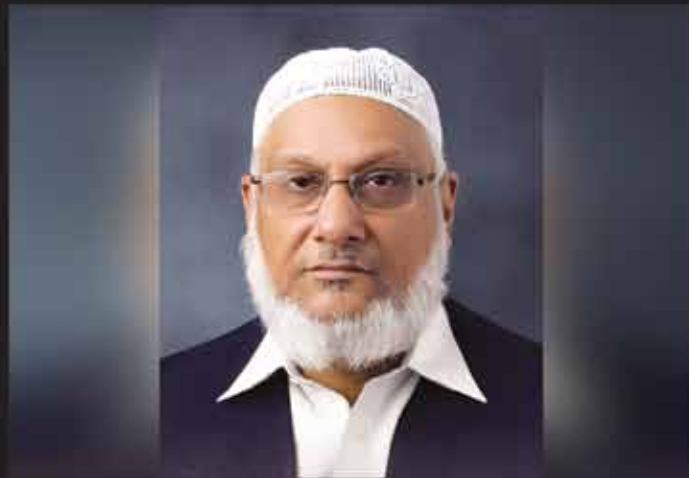

Pakistan is truly a rare land, home to different civilizations and diverse cultures. It was here in the verdant plains of Punjab more than two decades ago, a small movement began to bring the wholesome purity of nature into the homes & hearts. A movement that lives by the spirit of Pakistan. "A movement that is VITAL GROUP".

Processing, packing and marketing of Tea specialties in Pakistan has not always been a standardized affair, but Vital changed that. A small tea factory that grew into a local giant on the basis of a single promise "Consistent Best Quality". At the core of the groups' success is the sincerity and dedication of its team of highly qualified technical, financial and marketing experts. The products management and its team members are also undeniably our assets.

Vital group is committed to exceeding its own performance as reflected in the companies' exhaustive marketing network and sustained marketing activity with more than 250 stockiest and institutional suppliers and approximately 140,000 retail outlets dotting Pakistan's landscape, to say the company has penetrated the market deeply would be understatement.

Now opening doors to new horizons around the Globe.

Haji Muhammad Yasin
Chairman

CHAIRMAN MESSAGE

Vital Group had a very humble beginning as a small tea company that began its operations in 1991. Our value-oriented approach towards business has been very well received by the communities who we serve. Thus, within a short period, we have become one of the largest tea companies in the country. We are one of the national companies that export tea to lands other than Pakistan!

As a business story, VG has been receiving attention of academics also. For instance, Vital Tea's electronic media campaign was presented by a known social scientist at a colloquium in Islamabad as an outstanding example of 'socially responsible advertisements'. I thank you for this academic attention.

As a Chairman of VG, I am both very happy and humbled by the progress that VG has made over the years. I, truly and sincerely, believe that our success is but a story of how passion and people can derive a small business to greater heights.

I Thank Allah Almighty for converting our efforts into outcomes!

Mian Ghulam Mustafa
Managing Director

M.D's MESSAGE

The Vital Group is one of the most dynamic business enterprises in Pakistan.

The management philosophy of VG is strongly people oriented and quality oriented – this fine balance, I believe is our real Competitive Advantage!

With a strong people orientation, we are able to develop a sustainable and reliable network of customers, suppliers, distributors, retailers and buyers. At the same time, our quality orientation has helped us to develop a culture of Professional Excellence. We try to excel in all processes from acquiring superior ingredients to innovative manufacturing and packaging. In terms of quality, we are our own competitors!

Although a very recent initiative, the response to our other products, Vital Beauty Soap, Vital Fruity Soap & Haji Soap has also turned out to be equally warm and encouraging as has been in the case of tea products.

Our commitment to excellence in serving is our real asset!

Corporate Social Responsibility

Today's successful businesses are those that act as a Social Enterprise. Vital Group is a leading and vital example of it! We take a holistic approach towards Corporate Social Responsibility (CSR). CSR is not an isolated function for the VG rather it is manifestation of the overall vision and mission of the VG.

The socially responsible advertisements that we place in the mainstream media are reflective of VG's approach and philosophy. The advertisements mainly reinforce the positive values of the society, such care for the weaker section of the society, love for family, hard work and national identity. Where it comes to the 'educative' role of media, we believe that VG has set the trend for others to follow.

CSR at VG is quite diverse and covers many social domains such as providing financial support for:

- Marriage arrangements of girls from poor families,
- Health care,
- Plantation and development of parks (Green Pakistan),
- Improving educational infrastructure in the vicinity,
- And many others.
